

GXA Launches the “GXA Platform”

GX Acceleration Agency (GXA) launched the “GXA Platform” to strengthen our networking and policymaking capabilities through collaboration with various stakeholder communities.

As part of these activities, we collaborated on a seminar hosted by Bloomberg on May 15, 2026.

GXA engages in research and studies that consider international trends in GX policies, cross-industry collaboration, policy recommendations, and international communications, and strengthens its “GX Hub” function to promote GX.

Through the newly launched “GXA Platform”, GXA will collaborate with various stakeholder communities, including domestic and overseas business associations, nonprofit organizations and international agencies that share the vision of “GX Hub.” Through this initiative, we aim to strengthen our networking and policymaking capabilities by facilitating discussions and exchanges through events, roundtables, etc.

As part of these activities, GXA collaborated on the “Bloomberg Green Finance Seminar with Green Finance Network Japan and GX Acceleration Agency 2026” hosted by Bloomberg on May 15, 2026, along with Green Finance Network Japan (GFNJ).
